

Importance of need for pilots

According to techcruch.com:

The US Air Force is short one-quarter of fighter pilots it needs

Asian airlines are running out of trained pilots

Number of active pilots in the US has declined by 200,000 since 1980

Better technology, greater demand, economic growth and population growth have all lead to a need for more pilots

EARN A PILOT'S LICENSE WHILE GOING TO SCHOOL

Utah Military Academy Aviation Cadet Program (ACP) gives cadets age 16 and older, interested in pursuing an opportunity to fly, the chance to work toward earning their wings while in high school. This is a college level program that will require intense preparation and study!

To Qualify for This Competitive Program, Cadets:

- Must be able to obtain and pass the appropriate flight physical
- Must maintain cumulative or 4 consecutive terms of 3.5 GPA
- Must score 75% or higher on the JROTC PT test
- Must demonstrate consistent progress and leadership in JROTC, Civil Air Patrol, or Naval Sea Cadets
- Cannot have more than suspension or Class 3 Infraction
- Must maintain a 90% attendance record
- Must complete an application, meet an ACP board, and be selected by the board.

UMA offers the initial ground school which is taught at each school campus as well as up to 5 flight hours paid for by UMA for those who qualify.
