

# PAYETTE SCHOOL DISTRICT

Has received the USDA Fresh Fruit and Vegetable grant for the  
2023-2024 school year!

The USDA Fresh Fruits and Vegetable Program provides funding that allows our school district to purchase fruit and vegetables to serve to our students in both the Payette Primary and Westside Elementary Schools throughout the year.

This program is designed to:

- ➡ Expand the variety of seasonal fruits and vegetables our students get to experience.
- ➡ Increase student interest and consumption of fruits and vegetables.
- ➡ Make a lasting impression on produce consumption in our student's diet to impact their present and future health.
- ➡ Learning about different produce each day in the classroom.
