LOTTERY PULLS PROCEDURE

This procedure sets forth how the lottery will run at each campus in order to remain at our enrollment numbers.

1. In the fall, the administration will determine when the lottery will open and the date of the first lottery pull.
2. These dates will be posted to the Hawthorn Academy website at least 60 days prior to the lottery opening.
3. After the first lottery run, pulls will be made as needed to fill any open position in any grade.
4. If space is available, pulls may continue at the descretion of the principal until the end of the school year the student is being pulled for.
5. Lottery priority levels are as follows; board members children, employees children, siblings of current students, transfer students, and general lottery students.
6. Transfer students will be given priority at the descretion of the school, based on availability, student behavior, and other situational factors.
