Ascent Academies of Utah Wellness Policy

Preamble

Ascent Academies of Utah (hereto referred to as the District or AAU) is committed to the optimal development of every student. The District believes that for students to have the opportunity to achieve personal, academic, developmental and social success, we need to create positive, safe and health-promoting learning environments at every level, in every setting, throughout the school year.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks.^{1,2,3,4,5,6,7} Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students.^{8,9,10} In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities – do better academically.^{11,12,13,14} Finally, there is evidence that adequate hydration is associated with better cognitive performance.¹⁵

This policy outlines the District's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this policy establishes goals and procedures to ensure that:

- Students in the District have access to healthy foods throughout the school day through reimbursable school meals in accordance with Federal and state nutrition standards;
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors;
- Students have opportunities to be physically active before, during and after school;
- Schools engage in nutrition and physical activity promotion and other activities that promote student wellness;
- School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school;
- The community is engaged in supporting the work of the District in creating continuity between school and other settings for students and staff to practice lifelong healthy habits; and
- The District establishes and maintains an infrastructure for management, oversight, implementation, communication about and monitoring of the policy and its established goals and objectives.

This policy applies to all students, staff and schools in the District. Specific measureable goals and outcomes are identified within each section below.

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

I. School Wellness Committee

Committee Role and Membership

The District will convene a representative district wellness committee (hereto referred to as the DWC or work within an existing school health committee) that meets at least four times per year to establish goals for and oversee school health and safety policies and programs, including development, implementation and periodic review and update of this district-level wellness policy (heretofore referred as “wellness policy”).

The DWC membership will represent all school levels (elementary and secondary schools) and include (to the extent possible), but not be limited to: parents and caregivers; students; representatives of the school nutrition program (e.g., school nutrition director); physical education teachers; health education teachers; school health professionals (e.g., health education teachers, school health services staff [e.g., nurses, physicians, dentists, health educators, and other allied health personnel who provide school health services], and mental health and social services staff [e.g., school counselors, psychologists, social workers, or psychiatrists]); school administrators (e.g., Lead Director, Campus Director, Assistant Campus Director), school board members; health professionals (e.g., dietitians, doctors, nurses, dentists); and the general public. When possible, membership will also include Supplemental Nutrition Assistance Program Education coordinators (SNAP-EDEDSNAP-Ed). To the extent possible, the DWC will include representatives from each school building and reflect the diversity of the community.

Leadership

The Superintendent or designee(s) will convene the DWC and facilitate development of and updates to the wellness policy, and will ensure each school’s compliance with the policy.

Name	Title / Relationship to the District	Email address	Role on Committee
Wade Glathar	DWC Oversight District Lead Director	wglathar@AscentUtah.org	Provides oversight for policy development, evaluation of, and implementation of the wellness policy.
TBD	DWC Coordinator District Administrator		Coordinates efforts to develop, evaluate and implementation of wellness policy.
Sara Tucker	Administrator West Jordan Campus	stucker@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Dave Hirst	Network Child Nutrition Director	dhirst@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation. Assures policy aligns with CNP guidelines.
Megan Burr	Health Teacher Junior High	mburr@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Laura Richardson	Parent West Jordan Campus	lrichardson@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

Debbie Nelson	Counselor Farmington Campus	dnelson@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Michelle Miller	Parent Lehi Campus	mmiller@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Julie Johnson	Elementary Representative Lehi Campus	jjohnson@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Priscilla Todd	Junior High Representative Farmington Campus	ptodd@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Heidi Robinson	Parent Farmington Campus	hrobinson@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.

Each school will designate a school wellness policy coordinator, who will ensure compliance with the policy. Refer to Appendix A for a list of school-level wellness policy coordinators.

II. Wellness Policy Implementation, Monitoring, Accountability and Community Engagement

Implementation Plan

The District will develop and maintain a plan for implementation to manage and coordinate the execution of this wellness policy. The plan delineates roles, responsibilities, actions and timelines specific to each school; and includes information about who will be responsible to make what change, by how much, where and when; as well as specific goals and objectives for nutrition standards for all foods and beverages available on the school campus, food and beverage marketing, nutrition promotion and education, physical activity, physical education and other school-based activities that promote student wellness. It is recommended that the school use the [Healthy Schools Program online tools](#) to complete a school-level assessment based on the Centers for Disease Control and Prevention's School Health Index, create an action plan that fosters implementation and generate an annual progress report.

This wellness policy and the progress reports can be found at: www.AscentUtah.org

Recordkeeping

The District will retain records to document compliance with the requirements of the wellness policy on the AAU shared file server. Documentation maintained in this location will include but will not be limited to:

- The written wellness policy;
- Documentation demonstrating that the policy has been made available to the public;
- Documentation of efforts to review and update the Local Schools Wellness Policy; including an indication of who is involved in the update and methods the district uses to make stakeholders aware of their ability to participate on the DWC;
- Documentation to demonstrate compliance with the annual public notification requirements;
- The most recent assessment on the implementation of the local school wellness policy;

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

- Documentation demonstrating the most recent assessment on the implementation of the Local School Wellness Policy has been made available to the public.

Annual Notification of Policy

The District will actively inform families and the public each year of basic information about this policy, including its content, any updates to the policy and implementation status. The District will make this information available via the district website and/or district-wide communications. The District will provide as much information as possible about the school nutrition environment. This will include a summary of the District's events or activities related to wellness policy implementation. Annually, the District will also publicize the name and contact information of the District officials leading and coordinating the committee, as well as information on how the public can get involved with the school wellness committee.

Triennial Progress Assessments

At least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

- The extent to which schools under the jurisdiction of the District are in compliance with the wellness policy;
- The extent to which the District's wellness policy compares to the Alliance for a Healthier Generation's model wellness policy; and
- A description of the progress made in attaining the goals of the District's wellness policy.

The position/person responsible for managing the triennial assessment and contact information is Wade Glathar, wglathar@AscentUtah.org

The DWC, in collaboration with individual schools, will monitor schools' compliance with this wellness policy.

The District will actively notify households/families of the availability of the triennial progress report.

Revisions and Updating the Policy

The DWC will update or modify the wellness policy based on the results of the annual School Health Index and triennial assessments and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. **The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment.**

Community Involvement, Outreach and Communications

The District is committed to being responsive to community input, which begins with awareness of the wellness policy. The District will actively communicate ways in which representatives of DWC and others can participate in the development, implementation and periodic review and update of the wellness policy through a variety of means appropriate for that district. The District will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The District will use electronic mechanisms, such as email or displaying notices on the district's website, as well as

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy. The District will ensure that communications are culturally and linguistically appropriate to the community, and accomplished through means similar to other ways that the district and individual schools are communicating important school information with parents.

The District will actively notify the public about the content of or any updates to the wellness policy annually, at a minimum. The District will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

III. Nutrition

School Meals

The District is committed to serving healthy meals to children, with plenty of fruits, vegetables, whole grains, and fat-free and low-fat milk; that are moderate in sodium, low in saturated fat, and have zero grams *trans* fat per serving (nutrition label or manufacturer's specification); and to meeting the nutrition needs of school children within their calorie requirements. The school meal programs aim to improve the diet and health of school children, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs.

All schools within the District participate in USDA child nutrition programs, including the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). The District also operates additional nutrition-related programs and activities including school gardens and Grab 'n' Go Breakfast. All schools within the District are committed to offering school meals through the NSLP and SBP programs, and other applicable Federal child nutrition programs, that:

- Are accessible to all students;
- Are appealing and attractive to children;
- Are served in clean and pleasant settings;
- Meet or exceed current nutrition requirements established by local, state, and Federal statutes and regulations. (The District offers reimbursable school meals that meet [USDA nutrition standards](#).)
- Promote healthy food and beverage choices using at least ten of the following [Smarter Lunchroom techniques](#):
 - Whole fruit options are displayed in attractive bowls or baskets (instead of chaffing dishes or hotel pans).
 - Sliced or cut fruit is available daily.
 - Daily fruit options are displayed in a location in the line of sight and reach of students.
 - Daily vegetable options are bundled into all grab-and-go meals available to students.
 - All staff members, especially those serving, have been trained to politely prompt students to select and consume the daily vegetable options with their meal.
 - White milk is placed in front of other beverages in all coolers.
 - Alternative entrée options (e.g., salad bar, yogurt parfaits, etc.) are highlighted on posters or signs within all service and dining areas.
 - A reimbursable meal can be created in any service area available to students (e.g., salad bars, snack rooms, etc.).
 - Student surveys and taste testing opportunities are used to inform menu development, dining space decor and promotional ideas.
 - Menus will be posted on the District website or individual school websites

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

- School meals are administered by a team of child nutrition professionals.
- The District child nutrition program will accommodate students with special dietary needs. Students will be allowed at least 10 minutes to eat breakfast and at least 20 minutes to eat lunch, counting from the time they have received their meal and are seated (meets Healthy Schools Program Gold-level criteria).
- Lunch will follow the recess period to better support learning and healthy eating.
- Participation in Federal child nutrition programs will be promoted among students and families to help ensure that families know what programs are available in their children's school.

Staff Qualifications and Professional Development

All school nutrition program directors, managers and staff will meet or exceed hiring and annual continuing education/training requirements in the [USDA professional standards for child nutrition professionals](#). These school nutrition personnel will refer to [USDA's Professional Standards for School Nutrition Standards website](#) to search for training that meets their learning needs.

Water

To promote hydration, free, safe, unflavored drinking water will be available to all students throughout the school day* and throughout every school campus* ("school campus" and "school day" are defined in the glossary). The District will make drinking water available where school meals are served during mealtimes.

- Water cups/jugs will be available in the cafeteria if a drinking fountain is not present.
- All water sources and containers will be maintained on a regular basis to ensure good hygiene and health safety standards. Such sources and containers may include drinking fountains, water jugs, hydration stations, water jets and other methods for delivering drinking water.
- Students will be allowed to bring and carry (approved) water bottles filled with only water with them throughout the day.

Competitive Foods and Beverages

The District is committed to ensuring that all foods and beverages available to students on the school campus* during the school day* support healthy eating. The foods and beverages sold and served outside of the school meal programs (e.g., "competitive" foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day and create an environment that reinforces the development of healthy eating habits. A summary of the standards and information, as well as a Guide to Smart Snacks in Schools are available at: <http://www.fns.usda.gov/healthierschoolday/tools-schools-smart-snacks>. The Alliance for a Healthier Generation provides a set of tools to assist with implementation of Smart Snacks available at www.foodplanner.healthiergeneration.org.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day* will meet or exceed the USDA Smart Snacks nutrition standards. These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias, vending machines, school stores and snack or food carts.

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

The form for selling food or beverages must be submitted to the Child Nutrition Program director for approval. The form, [AAU Food and Concession Sales Authorization](#), can be found in Appendix A. The form must be submitted for approval at least two weeks prior to the event.

Celebrations and Rewards

It is suggested that all foods offered on the school campus will meet or exceed the USDA Smart Snacks in School nutrition standards including through:

1. Celebrations, parties, and food in the classroom for instructional purposes.
 - a. The district will provide a list of healthy party and food ideas to parents and teachers, including non-food celebration ideas. Healthy party ideas are available from the [Alliance for a Healthier Generation](#) and from the [USDA](#).
 - b. All teachers must submit a Consumption of Food in the Classroom Authorization form (Appendix A) to their campus administration and receive signed parental permission in order for students to partake in eating any food or drinking any beverage provided for a class party, celebration or for classroom instructional purposes.
 - c. Food and beverages sold outside of the school meal programs, during the school day, will meet the USDA Smart Snacks in School nutrition standards. Guidelines for the Smart Snacks in School can be found at <https://www.fns.usda.gov/tn/guide-smart-snacks-schools>
2. Classroom snacks brought by parents or students. The District will provide to parents a [list of foods and beverages that meet Smart Snacks](#) nutrition standards. Parents are allowed to provide snacks for their own student only.
3. Rewards and incentives. The District will provide teachers and other relevant school staff a [list of alternative ways to reward children](#). Foods and beverages will not be used as a reward in the classroom, or withheld as punishment for any reason, such as for performance or behavior.

Fundraising

Schools will use only non-food fundraisers for sales, and instead, encourage those fundraisers promoting physical activity (such as walk-a-thons, Jump Rope for Heart, fun runs, etc.).

Sales of food or beverages during midnight and 3:30 pm on a school day, such as concessions at sporting events, will require authorization from the Child Nutrition Director using the [AAU Food and Concession Sales](#) form found in Appendix A. The form must be submitted for approval at least two weeks prior to the event.

Nutrition Promotion

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and encourage participation in school meal programs. Students and staff will receive consistent nutrition messages throughout schools, classrooms, gymnasiums, and cafeterias. Nutrition promotion also includes marketing and advertising nutritious foods and beverages to students and is most effective when implemented consistently through a comprehensive and multi-channel approach by school staff, teachers, parents, students and the community.

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

The District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs. This promotion will occur through at least:

- Implementing at least ten or more evidence-based healthy food promotion techniques through the school meal programs using [Smarter Lunchroom techniques](#); and
- Ensuring 100% of foods and beverages promoted to students meet the USDA Smart Snacks in School nutrition standards. Additional promotion techniques that the District and individual schools may use are available at <http://www.foodplanner.healthiergeneration.org/>.

Nutrition Education

The District will teach, model, encourage and support healthy eating by all students. Schools will provide nutrition education and engage in nutrition promotion that:

- Is designed to provide students with the knowledge and skills necessary to promote and protect their health;
- Is part of not only health education classes, but also integrated into other classroom instruction through subjects such as math, science, language arts, social sciences and elective subjects;
- Includes enjoyable, developmentally-appropriate, culturally-relevant and participatory activities, such as cooking demonstrations or lessons, promotions, taste-testing, farm visits and school gardens;
- Promotes fruits, vegetables, whole-grain products, low-fat and fat-free dairy products and healthy food preparation methods;
- Emphasizes caloric balance between food intake and energy expenditure (promotes physical activity/exercise);
- Links with school meal programs, cafeteria nutrition promotion activities, school gardens, Farm to School programs, other school foods and nutrition-related community services;
- Teaches media literacy with an emphasis on food and beverage marketing; and
- Includes nutrition education training for teachers and other staff.
- In elementary schools, nutrition education will be offered at each grade level as part of a sequential, comprehensive, standards-based health education curriculum that meets state and national standards.
- All health education teachers will provide opportunities for students to practice or rehearse the skills taught through the health education curricula.

Essential Healthy Eating Topics in Health Education

The District will include in the health education curriculum a minimum of 12 of the following essential topics on healthy eating:

- Relationship between healthy eating and personal health and disease prevention
- Food guidance from [MyPlate](#)
- Reading and using FDA's nutrition fact labels
- Eating a variety of foods every day
- Balancing food intake and physical activity
- Eating more fruits, vegetables and whole grain products
- Choosing foods that are low in fat, saturated fat, and cholesterol and do not contain *trans* fat
- Choosing foods and beverages with little added sugars
- Eating more calcium-rich foods
- Preparing healthy meals and snacks

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

- Risks of unhealthy weight control practices
- Accepting body size differences
- Food safety
- Importance of water consumption
- Importance of eating breakfast
- Making healthy choices when eating at restaurants
- Eating disorders
- [The Dietary Guidelines for Americans](#)
- Reducing sodium intake
- Social influences on healthy eating, including media, family, peers and culture
- How to find valid information or services related to nutrition and dietary behavior
- How to develop a plan and track progress toward achieving a personal goal to eat healthfully
- Resisting peer pressure related to unhealthy dietary behavior
- Influencing, supporting, or advocating for others' healthy dietary behavior

Food and Beverage Marketing in Schools

The District is committed to providing a school environment that ensures opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. The District strives to teach students how to make informed choices about nutrition, health and physical activity. These efforts will be weakened if students are subjected to advertising on District property that contains messages inconsistent with the health information the District is imparting through nutrition education and health promotion efforts. It is the intent of the District to protect and promote student's health by permitting advertising and marketing for only those foods and beverages that are permitted to be sold on the school campus, consistent with the District's wellness policy.

Any foods and beverages marketed or promoted to students on the school campus* during the school day* will meet or exceed the USDA Smart Snacks in School nutrition standards.

Food and beverage marketing is defined as advertising and other promotions in schools. Food and beverage marketing often includes an oral, written, or graphic statements made for the purpose of promoting the sale of a food or beverage product made by the producer, manufacturer, seller or any other entity with a commercial interest in the product.¹⁵ This term includes, but is not limited to the following:

- Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container.
- Displays, such as on vending machine exteriors
- Corporate brand, logo, name or trademark on school equipment, such as marquees, message boards, scoreboards or backboards (Note: immediate replacement of these items are not required; however, districts will replace or update scoreboards or other durable equipment when existing contracts are up for renewal or to the extent that is in financially possible over time so that items are in compliance with the marketing policy.)
- Corporate brand, logo, name or trademark on cups used for beverage dispensing, menu boards, coolers, trash cans and other food service equipment; as well as on posters, book

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

covers, pupil assignment books or school supplies displayed, distributed, offered or sold by the District.

- Advertisements in school publications or school mailings.
- Free product samples, taste tests or coupons of a product, or free samples displaying advertising of a product.

As the District/school nutrition services/Athletics Department/PTA/PTO reviews existing contracts and considers new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by the District wellness policy.

IV. Physical Activity

Children and adolescents should participate in at least 60 minutes of physical activity every day. A substantial percentage of students' physical activity can be provided through a comprehensive school physical activity program (CSPAP). A CSPAP reflects strong coordination and synergy across all of the components: quality physical education as the foundation; physical activity before, during and after school; staff involvement and family and community engagement and the district is committed to providing these opportunities. Schools will ensure that these varied physical activity opportunities are in addition to, and not as a substitute for, physical education (addressed in "Physical Education" subsection). All schools in the district will be encouraged to participate in *Let's Move! Active Schools* (www.letsmoveschools.org) in order to successfully address all CSPAP areas.

Physical activity during the school day (including but not limited to recess, classroom physical activity breaks or physical education) **will not be withheld** as punishment for any reason. The district will provide teachers and other school staff with a [list of ideas](#) for alternative ways to discipline students.

To the extent practicable, the District will ensure that its grounds and facilities are safe and that equipment is available to students to be active. The District will conduct necessary inspections and repairs.

Physical Education

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts (discussed in the "*Essential Physical Activity Topics in Health Education*" subsection). The curriculum will support the essential components of physical education.

All students will be provided equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

All District **elementary students** in each grade will receive physical education for at least 60-89 minutes per week throughout the school year.

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

All AAU **secondary students** (middle and high school) are required to take the equivalent of one academic year of physical education.

The District physical education program will promote student physical fitness through individualized fitness and activity assessments (via the [Presidential Youth Fitness Program](#) or other appropriate assessment tool) and will use criterion-based reporting for each student.

- Students will be moderately to vigorously active for at least 50% of class time during most or all physical education class sessions.
- All physical education teachers in AAU will be required to participate in at least a once a year professional development in education.

Essential Physical Activity Topics in Health Education

Health education will be required in all grades (elementary) and the district will require middle and high school students to take and pass at least one health education course. The District will include in the health education curriculum a minimum of 12 the following essential topics on physical activity:

- The physical, psychological, or social benefits of physical activity
- How physical activity can contribute to a healthy weight
- How physical activity can contribute to the academic learning process
- How an inactive lifestyle contributes to chronic disease
- Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
- Differences between physical activity, exercise and fitness
- Phases of an exercise session, that is, warm up, workout and cool down
- Overcoming barriers to physical activity
- Decreasing sedentary activities, such as TV watching
- Opportunities for physical activity in the community
- Preventing injury during physical activity
- Weather-related safety, for example, avoiding heat stroke, hypothermia and sunburn while being physically active
- How much physical activity is enough, that is, determining frequency, intensity, time and type of physical activity
- Developing an individualized physical activity and fitness plan
- Monitoring progress toward reaching goals in an individualized physical activity plan
- Dangers of using performance-enhancing drugs, such as steroids
- Social influences on physical activity, including media, family, peers and culture
- How to find valid information or services related to physical activity and fitness
- How to influence, support, or advocate for others to engage in physical activity
- How to resist peer pressure that discourages physical activity.

Recess (Elementary)

All elementary schools will offer at least **20 minutes of recess** on all days during the school year. This requirement may be waived on early dismissal or late arrival days. Because recess is offered before lunch, schools will have appropriate hand-washing facilities and/or hand-sanitizing mechanisms located just inside/outside the cafeteria to ensure proper hygiene prior to eating and students are required to use these mechanisms before eating. Hand-washing time, as well as time to put away coats/hats/gloves, will be built in to the recess transition period/timeframe before students enter the cafeteria.

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

Outdoor recess will be offered when weather is feasible for outdoor play. Students will be allowed outside for recess except when the outdoor “feels-like” temperature is below 20°F, during “code orange” or “code red” days, during storms with lightening or thunder, or at the discretion of the building administrator based on his/her best judgment of safety conditions.

In the event that the school or district must conduct **indoor recess**, teachers and staff will follow the indoor recess guidelines that promote physical activity for students, to the extent practicable.

Indoor Recess Guidelines

- Indoor recess will provide opportunities for students to have at least 10 minutes of physical activity.
- Indoor recess will be monitored by AAU staff.

Recess will complement, not substitute, physical education class. Recess monitors or teachers will encourage students to be active, and will serve as role models by being physically active alongside the students whenever feasible.

Classroom Physical Activity Breaks (Elementary and Secondary)

The District recognizes that students are more attentive and ready to learn if provided with periodic breaks when they can be physically active or stretch. Thus, students will be offered **periodic opportunities** to be active or to stretch throughout the day on all or most days during a typical school week. The District recommends teachers provide short (3-5-minute) physical activity breaks to students during and between classroom time at least three days per week. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

The District will provide resources and links to resources, tools, and technology with ideas for classroom physical activity breaks. Resources and ideas are available through [USDA](#) and the [Alliance for a Healthier Generation](#).

Active Academics

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible (e.g., science, math, language arts, social studies and others) and do their part to limit sedentary behavior during the school day.

The District will support classroom teachers incorporating physical activity and employing kinesthetic learning approaches into core subjects by providing annual professional development opportunities and resources, including information on leading activities, activity options, as well as making available background material on the connections between learning and movement.

Teachers will serve as role models by being physically active alongside the students whenever feasible.

Before and After School Activities

The District offers opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods. The District will encourage students to be physically active before and after school by:

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

- Providing students with access to physical activity clubs.
- Providing students in grades access to interscholastic sports determined by the required grade-level of the specific sport.
- Providing parents and students with information for sports and activities offered in the neighboring community.

Active Transport

The District will support active transport to and from school, such as walking or biking. The District will encourage this behavior by engaging in *six or more* of the activities below; including but not limited to:

- Designate safe or preferred routes to school
- Promote activities such as participation in International Walk to School Week, National Walk and Bike to School Week
- Instruction on walking/bicycling safety provided to students
- Promote safe routes program to students, staff, and parents via newsletters, websites, local newspaper
- Use crosswalks on streets leading to schools
- Create and distribute maps of school environment (e.g., sidewalks, crosswalks, roads, pathways, bike racks, etc.)

V. Other Activities that Promote Student Wellness

The District will integrate wellness activities across the entire school setting, not just in the cafeteria, other food and beverage venues and physical activity facilities. The District will coordinate and integrate other initiatives related to physical activity, physical education, nutrition and other wellness components so all efforts are complementary, not duplicative, and work towards the same set of goals and objectives promoting student well-being, optimal development and strong educational outcomes.

Schools in the District are encouraged to coordinate content across curricular areas that promote student health, such as teaching nutrition concepts in mathematics, with consultation provided by either the school or the District's curriculum experts.

All efforts related to obtaining federal, state or association recognition for efforts, or grants/funding opportunities for healthy school environments will be coordinated with and complementary of the wellness policy, including but not limited to ensuring the involvement of the DWC/SWC.

All school-sponsored events will adhere to the wellness policy guidelines. All school-sponsored wellness events will include physical activity and healthy eating opportunities when appropriate.

Community Partnerships

The District will develop relationships with community partners (e.g., hospitals, universities/colleges, local businesses, SNAP-Ed providers and coordinators, etc.) in support of this wellness policy's implementation. Existing and new community partnerships and sponsorships will be evaluated to ensure that they are consistent with the wellness policy and its goals.

Community Health Promotion and Family Engagement

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 04/2017 to Reflect the USDA Final Rule

The District will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

As described in the “Community Involvement, Outreach, and Communications” subsection, the District will use electronic mechanisms (e.g., email or displaying notices on the district’s website), as well as non-electronic mechanisms, (e.g., newsletters, presentations to parents or sending information home to parents), to ensure that all families are actively notified of opportunities to participate in school-sponsored activities and receive information about health promotion efforts.

Staff Wellness and Health Promotion

The DWC will have a staff wellness subcommittee that focuses on staff wellness issues, identifies and disseminates wellness resources and performs other functions that support staff wellness in coordination with human resources staff. The subcommittee leader’s name is Cymberly Erni.

Schools in the District will implement strategies to support staff in actively promoting and modeling healthy eating and physical activity behaviors. The District promotes staff member participation in health promotion programs and will support programs for staff members on healthy eating/weight management that are accessible and free or low-cost.

1. Staff will be encouraged to consume the recommended amount of water daily. If necessary, water bottles will be provided.
2. Each School will assign a staff wellness coordinator to work alongside the subcommittee’s leader, Cymberly Erni, to create a District-wide health challenge once each school year. The health challenge is an optional activity for staff.
3. Schools will arrange additional staff activities to encourage wellness. Staff participation in these activities is optional, not mandated. These activities could include participation in a healthy eating challenge, walking outside around the campus during lunch or after school, after-school group yoga or exercise activities, and/or encouragement to abstain from excessive work hours.

Professional Learning

When feasible, the District will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class). Professional learning will help District staff understand the connections between academics and health and the ways in which health and wellness are integrated into ongoing district reform or academic improvement plans/efforts.

Updated 04/2017 to Reflect the USDA Final Rule

Appendix A

School Wellness Policy Leadership

Name	Title / Relationship to the District	Email address	Role on Committee
Wade Glathar	DWC Oversight District Lead Director	wglathar@AscentUtah.org	Provides oversight for policy development, evaluation of, and implementation of the wellness policy.
TBD	DWC Coordinator District Administrator		Coordinates efforts to develop, evaluate and implementation of wellness policy.
Sara Tucker	Administrator West Jordan Campus	stucker@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Dave Hirst	Network Child Nutrition Director	dhirst@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation. Assures policy aligns with CNP guidelines.
Megan Burr	Health Teacher Junior High	mburr@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Laura Richardson	Parent West Jordan Campus	lrichardson@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Debbie Nelson	Counselor Farmington Campus	dnelson@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Michelle Miller	Parent Lehi Campus	mmiller@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Julie Johnson	Elementary Representative Lehi Campus	jjohnson@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Priscilla Todd	Junior High Representative Farmington Campus	ptodd@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Heidi Robinson	Parent Farmington Campus	hrobinson@AscentUtah.org	Assists in policy development and evaluation of the wellness policy implementation.
Cymberly Erni	District Staff Wellness Leader	cerni@ascentutah.org	Works with school staff wellness coordinators to implement District-wide health challenge.

Updated 04/2017 to Reflect the USDA Final Rule

AAU Consumption of Food in the Classroom Authorization Form

This form must be completed and provided to administration in a manner timely enough that parents can be notified at least two-weeks prior to the activity. The USDA suggests that the foods and beverages served outside of the school meal programs will meet the USDA Smart Snacks in School nutrition standards. Guidelines for the Smart Snacks in School can be found at <https://www.fns.usda.gov/tn/guide-smart-snacks-schools>

Scheduling Teacher _____ Grade(s) _____

What is the purpose of this activity?

_____ Support Instruction _____ Class Celebration _____ Class Party

If this activity will support instruction, please provide a summary of the curriculum tie-in and the State Standards / Objectives addressed with this activity:

Curriculum Tie-In _____

Standards / Objectives Addressed _____

What food or beverage items will students have the ability to consume? This must be SPECIFIC as you will be required to include specific food items on the parent permission form:

PARENT PERMISSION

Parents **must** receive notice of the activity at least two-weeks prior and must provide signed permission for their student to participate. The permission must include a list of the specific food and beverage items students will have access to consume. In addition, an alternate activity must be provided for students who cannot participate. **Attach a copy of the parent notice and permission form. The activity will NOT be approved unless a copy of the parent permission letter is provided.**

CAMPUS DIRECTOR APPROVAL

☐ APPROVED ☐ NOT APPROVED (reason) _____

Signature _____ Date _____

After completed by the Campus Director please return the original to the scheduling teacher and file a copy for school records.

Updated 04/2017 to Reflect the USDA Final Rule

AAU Food and Concession Sales Authorization Form

Food and concession sales that occur between midnight and 3:30 pm on a school day MUST be pre-approved by the Child Nutrition Director at least two weeks prior to the activity. Sales during the school day MUST conform to USDA Smart Snacks in School nutrition standards. Guidelines for the Smart Snacks in School can be found at <https://www.fns.usda.gov/tn/guide-smart-snacks-schools>

Individual Submitting Form _____ Campus _____

Date(s) and Time(s) of Activity _____

Purpose of Activity _____

Items to be Sold for Concessions (must be specific):

_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

Purpose of the funds raised from sales: _____

Who will be selling the food items - staff, students or volunteers? _____

I agree that the above dates/times are correct and a complete list of all food being sold is described above:

Signature _____ **Date** _____

To Be Completed by CNP Director

☐ APPROVED

☐ NOT APPROVED (reason) _____

Signature _____ Date _____

After completed by the CNP Director please return the original to the scheduling employee and file a copy for school records.
