

Use the B.A.S.E. guide to find and select your afterschool enrichment classes. Select one class option for each day you want. The days are color-coded to help you organize your choices.

After you have your selection(s), click on the B.A.S.E. registration link here. Find your selections, in alphabetical order, on the scheduler and sign up for the classes available. Be sure and read any instructor notes, if applicable, for the class listed on the scheduler. These notes will give you extra information or let you know what may be provided for the class.

There is a 15-student maximum for each class, so if a class is full, it has reached its capacity. Don't despair though, because many classes will be available several times throughout the year.
