Utah Core Standards

Overview. The Utah State Board of Education adopted the K-12 Utah Core Standards for Mathematics in January 2016. Core guides provide a description of the Core Standards, including concepts and skills to master, critical background knowledge and academic vocabulary.

Subject: Essential Standards

Shannon,

Can you send me the essential standards documents for elementary and secondary math? I am getting ready to post them in the online module and I can't find them.

Thanks!

Jennifer Thronsen, PhD

Director of Teaching and Learning
Utah State Board of Education
