

Charter School Board of the Year

George
Washington
Academy

George Washington Academy board is an example of effective, efficient, and appropriate board governance. The board meetings consistently focus on governance and outcomes. The board has an effective and professional working relationship with director, and evaluate the director annually. They perform a board evaluation every meeting by having observers in the meeting fill out an evaluation survey. They include board training in each meeting. To remain focused and time-efficient, the board members estimate the finish time and if the meeting reaches that time, they evaluate if they still need to go forward or if the meeting has accomplished the agenda goals and can be closed. They are able to stay focused by all members coming prepared and using parliamentary procedure. Due to their excellence in board governance the board of George Washington Academy earns Board of the Year award.
