

BRIDGE BULLETIN

MARCH 6, 2021

FROM THE DESK OF MRS. ROUNDS

Another week in the books! The weather is cooperating - the birds are chirping - the sun is shining - and COVID numbers are dropping. Seems like all the cards are aligning for us to have a fabulous spring!

There is NO SCHOOL this Friday, March 12, and the following Monday, March 15. These are Legislative Professional Development days. Schools get up to four of these each year for teachers to collaborate with peers and to participate in professional learning activities. This year, Bridge used three days - one in February and two in March. Next year we will use four days, two days before school begins, one day after school ends, and one day in February.

If you haven't had time to look at next year's calendar, you can find it on our website at:

<https://www.bridgecharter.org/school-calendar-2021-2022>

Everyday, as I wander through classrooms, I am amazed at the positive, supportive learning environment we have created. Seeing students actively engaged in learning and participating in instructional activities that are challenging, yet at their developmental level, especially during their small group instruction, feels my heart with joy!

I don't want to fast forward my life, BUT I am truly looking forward to next school year - COVID-free (fingers crossed) with the implementation of some terrific changes (like parent volunteers, field trips, short day Fridays, and improved advisory PLP time) that will enhance your child's educational experience.

As always, thank you for entrusting us with your children's education.

Have a terrific weekend and we will see you Monday morning!

VISIBLE LEARNING - THOROUGHNESS

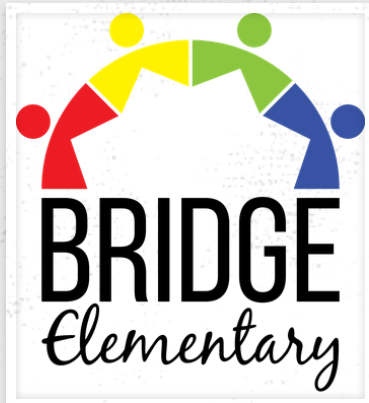

This month during Visible Learning, students are learning about the importance of Thoroughness "Taking care of details and doing my best."

Please have your students practice the following "I Will..." statements.

- I will plan my work.
- I will pay attention to details.
- I will make a list so I don't forget.
- I will finish what I start.
- I will clean up along the way.

Our mission is to empower students to take ownership of their own learning. By learning, practicing and embracing these visible learning traits, students will have the skills needed to become accountable for their own lifelong learning. You can find the six Visible Learning traits on our website at [Visible Learning](#)
