

# Ethno-Botany and Primitive Technology - Mr. Sean

Overview: Ethno-Botany and Primitive Technology is a class that will delve into local, Utah Native American society, culture, and use of Natural Resources in their daily lives. Students will get a chance to produce artifacts using traditional methods and materials.

Topics will include (but are subject to change):

Archaeology

Trade/Barter

Significance of Chance (gambling)

Tools - String

Hunting tools

Clay

Fire

Weaving

Clothing

Shelters

Art and Jewelry

Games and Recreation

Legends

Food and Medicine

Comparison with Incoming Pioneer Tech

Be prepared to work outside and with your hands.
