Test results from these locations will be emailed to you in an encrypted file from CV19result@utah.gov 30 minutes to several hours after your test is done. If the testing location is extremely busy, it may take a while to process your results. If you don't see an email in your inbox, look in spam or junk mail. Or try to open the email on a non-app browser (chrome, firefox, etc.) and on a computer or non-phone device. If you have trouble opening the email or it doesn't come within a few hours, call (385) 273-7878 for assistance.

For the most accurate results, we recommend people without symptoms receive a PCR test. PCR results are available within 2-3 business days. Antigen (rapid) results are available within two hours.
