- Community 600 series

Counseling and Guidance Program Policy:

The Greenwood School Counselor will organize meetings and assist students in developing Student Education Occupation Plans. The counselor will meet at least once a year with students in 7th and 8th grade and parents to review transcripts, student progress towards graduation, celebrate accomplishments and plan for the next year. Besides academic reporting, this should include college and career planning. College and career planning will also be addressed during Crew and in our Career and College Awareness class.
