

Bridge Elementary

Cancellation of: Invitation for Bids (“IFB”) For Artificial Turf Field Installation

Bridge Elementary issued the above-referenced IFB on January 24, 2022 and received two bids in response to the IFB. Both bids far exceed the dollar amount the School has available to pay for this project. The School hopes that the base work and drainage requirements for this project may be able to be simplified and revised (yet remain effective), and that as a result the costs of the project will be decreased in a manner that the School can afford to do the project. Therefore, the School hereby cancels the IFB. The School plans to determine how to best handle/approach the base work and drainage portion of this project and then issue another Invitation for Bids with the revised specifications.
